

IAPMO BACKFLOW PREVENTION INSTITUTE

IAPMO Backflow Prevention Institute (BPI) provides education and training services to increase both private and professional awareness of potential hazards to the public drinking supply relating to backflow and cross-connections. Our training and certification classes are based on the requirements of the ASSE/ANSI Series 5000 Cross-Connection Control Professional Qualifications Standard.

The IAPMO Backflow Prevention Institute training is designed to provide the student with the knowledge to successfully pass any examination required by the State or Local Authority Having Jurisdiction. BPI has designed this comprehensive training to provide the necessary skills to confidently take the exam of AWWA, ABPA, ABC, ASSE and many others certification bodies.
